

STATE OF CALIFORNIA CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD  
Base Year Modification Request Certification

Part 1: Generation Study - No Extrapolation Diversion Data

To request a substitution for a previously approved base year used in calculating the diversion rate for your jurisdiction, please complete and sign this form and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

Mail completed documents to:

California Integrated Waste Management Board  
Office of Local Assistance  
1001 I Street, (MS-25)  
PO Box 4025  
Sacramento, CA 95812-4025

General Instructions:

Please select the ONE choice below that best explains your request to the Board.

- 1. Use a recent generation-based study to calculate our current reporting year generation amount, but not officially change our existing Board-approved base year.
- 2. Use a recent generation-based study to officially change our existing Board-approved base year to a new base year.

The shaded cells on these sheets are protected. If you have problems using these sheets, please contact your Office of Local Assistance representative by calling (916) 341-6199.

| Section I: Jurisdiction Information and Certification   |  |   |          |
|---|--|---|----------|
| <i>All respondents must complete this section.</i>  |  |   |          |
| I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of: |  |   |          |

**Section II: Information for New Generation-Based Study for Existing or New Base Year**  
**Attach additional sheets if necessary—reference each response to the appropriate cell number (e.g., "4").**  
*Note: New base years must be representative of a jurisdiction's disposal and diversion.*

|  |   |
|--|---|
| <b>1. Current Board-approved existing base year:</b> | <b>2. Proposed new generation-based study year:</b> |
| 1990   | 2000  |

**3. Explain how the proposed generation study year is representative of average annual jurisdiction disposal and diversion:**

**4. Enter diversion rate information below.**

|   |  |   |   |
|---|--|---|---|
| <b>Diversion rate calculated using existing base year</b>           | <b>a. 27 %</b>                         | <b>Diversion rate calculated using new generation-based study</b>           | <b>b. 42 %</b>                          |
| <b>For existing base year pounds/person/day based on generation</b> | N/A                                    | <b>For new generation based study pounds/person/day based on generation</b> | N/A                                     |
| <b>Residential generation 10 %</b>                                  | <b>Non-Residential generation 90 %</b> | <b>Residential generation 10% %</b>   | <b>Non-Residential generation 90% %</b> |
| <b>Population existing generation-based study 12,135</b>            |  | <b>Population new generation-based study 13,350</b>                         |   |

**5. If there is an increase from 4a to 4b, please explain how the new diversion rate is consistent with your current diversion implementation efforts. If the proposed new generation tonnage results in an increase in your pounds/person/day, please explain how this is consistent with your current diversion implementation efforts and provide any examples (e.g., change in jurisdiction's demographics).**

The City of Commerce has a large commercial and industrial community. The ratio of pounds of waste per day based on the City's population is not relevant unless you include the persons employed by the more than 1,800 businesses.

**6. If the difference between the proposed diversion rates in 4a and 4b is greater than 5 percentage points, please explain the specific reasons for the difference. (For example: new/improved curbside diversion programs.)**

The City of Commerce has implemented all relevant SRRE programs and has expanded existing programs. For example the City added curbside green waste collection to our Residential Recycling Program. We recycle the ash produced by the Commerce Refuse to Energy Facility. We have active Business Recycling Survey and Awards Program. However, the main reason that these numbers differ is the lack of an accurate base year.

|                                     |  |             |                 |        |
|-------------------------------------|--|-------------|-----------------|--------|
| 7. Disposal Tonnage (enter values): |  | 4409        | 121870          | 126279 |
|                                     |  | Residential | Non-Residential | Total  |

Please select the **ONE** choice below that best explains your disposal data and complete the required tables.

a. All tons claimed are from the Board's Disposal Reporting System (No explanation required. Go to Section 8.)

b. All tons claimed are from a 100 percent audit of hauler and self-haul tonnage. (Please complete Reporting Year Tonnage Request and Modification Certification sheet found at [www.ciwmb.ca.gov/LGCentral/Forms/rytmndrq.doc](http://www.ciwmb.ca.gov/LGCentral/Forms/rytmndrq.doc))

c. Some Disposal Reporting System data were corrected. (Please complete Reporting Year Tonnage Modification Request and Certification sheet found at [www.ciwmb.ca.gov/LGCentral/Forms/rytmndrq.doc](http://www.ciwmb.ca.gov/LGCentral/Forms/rytmndrq.doc))

8. In the table below, list the summarized diversion activities, and diversion data records that support your claim and are available for Board audit. **Note: The Board expects the jurisdictions to be able to provide all back-up documentation, if requested.** Include type of record and location—for example, weight tickets from transfer stations. This section should capture all diversion tonnage (form will perform all addition calculations). If any diversion is from restricted wastes, agricultural wastes, inert solids (e.g., concrete, asphalt, dirt,) white goods, and scrap metal, please identify those programs/waste types and fill out Section 10. Please mark as Attachment 8 all copies of survey forms.

\*Please provide detailed Non-Residential waste information in Section 9.

**Note: The Board has indicated that it will be scrutinizing total source reduction amounts greater than 5% of total generation. Please be prepared to provide additional details substantiating your claim.**

| Division Activity  | Actual tonnage | Relative Percent to Total Generation | Specific Material Type(s) Let operation with multiple materials in one box | Specific Conversion Factor Used (if any) and Source | Type of Record and Location of Record |
|--|----------------|--------------------------------------|--|---|---------------------------------------|

Also provide an attachment 9 which includes all of the generators surveyed. Include for each generator (use type of generator in lieu of specific business name) diversion activity and material type and associated tonnage for each diversion activity/material type, and applicable conversion factors/sources. Include copies of survey form(s) used.

Summarize the non-residential diversion activities for the top 10 generators quantification methodology, and applicable conversion factors and sources (e.g., cardboard recycling: quantified by monthly tonnage receipts provided by the contact person at the business).

10. For each restricted waste type (i.e., agricultural waste, inert solids, [e.g. concrete, asphalt, dirt, etc.] scrap metals and white goods [PRC section 41781.2]) and associated program, please provide the following information:

a. If the diversion program started on or after January 1, 1990, complete the following table.

**Note:** program name refers to one specific diversion program for that waste type (e.g., "Diversion conducted by city public waste dept. ").

| Restricted Waste Type     | Specific Program Name                                  | Year Started | Tonnage |
|---------------------------|--|--------------|---------|
| Inert Solids              | Landfill salvage from L.A. and Orange County Landfills | 1991         | 42708   |
| Scrap Metal               | CREF Metal Salvage                                     | 1991         | 1938    |
| Pull Down for Waste Types |  |              |         |
| Pull Down for Waste Types |  |              |         |
| Pull Down for Waste Types |  |              |         |
| Pull Down for Waste Types |  |              |         |

b. If the diversion program started before January 1, 1990 - and if documentation on the program and waste type has not been approved by the Board - on a separate sheet marked "Attachment 10b", provide the documentation that indicates:

- How the diversion was the result of a local action taken by the jurisdiction, which specifically resulted in the diversion (PRC sec. 41781.2 [c] [1]).
- That the amount of that waste type diverted from the jurisdiction in 1990 was less than or equal to the amount of that waste type disposed at a permitted disposal facility by the jurisdiction in any year before 1990. (**Note:** this criterion is applicable to the entire jurisdiction, not to individual programs (PRC sec. 41781.2 [c] [2]). Please include documentation.
- That the jurisdiction is implementing, and will continue to implement, the diversion programs in its source reduction and recycling element.

**Note:** If documentation for a waste type and program has already been approved by the Board, you do not have to provide an attachment 10b for that waste type and program.

Instead please provide date of Board approval of previously submitted information. \_\_\_\_\_ (Date)

If documentation is not available, go to 10d.

c. If the diversion program started before January 1, 1990, and the documentation requested in 10b is available (but not yet approved by the Board), complete the table below for each program claimed:

| Restricted Waste Type     | Specific Program Name | New Base Year or Reporting Year | Diversion Tonnage |
|---------------------------|-----------------------|---------------------------------|-------------------|
| Pull Down for Waste Types |                       |                                 |                   |
| Pull Down for Waste Types |                       |                                 |                   |
| Pull Down for Waste Types |                       |                                 |                   |
| Pull Down for Waste Types |                       |                                 |                   |
| Pull Down for Waste Types |                       |                                 |                   |
| Pull Down for Waste Types |                       |                                 |                   |

d. If the diversion program started before January 1, 1990, and the documentation requested in 10b is not available, please complete the table below for each program claimed. **Note:** Only the difference between the new base year/reporting year and 1990 can be counted in the diversion rate calculation.

| Restricted Waste Type     | Specific Program Name | New Base Year or Reporting Year Tonnage | 1990 Diversion Tonnage | Difference |
|---------------------------|-----------------------|---|------------------------|------------|
| Pull Down for Waste Types |                       |   |                        |            |
| Pull Down for Waste Types |                       |   |                        |            |
| Pull Down for Waste Types |                       |   |                        |            |
| Pull Down for Waste Types |                       |   |                        |            |
| Pull Down for Waste Types |                       |   |                        |            |
| Pull Down for Waste Types |                       |   |                        |            |
